So, you want to become a part of the Marana Farm Stand?

Great! Just get in touch with us. Stop by the farm or call the number on this flyer to find out how to become a part the market.

If you are a backyard gardener or produce food and find yourself with more harvest than you can use, this is an outstanding opportunity to **avoid waste, make money, learn about a fast-growing part of the food industry and meet new people in the area.**

We would especially like to find anyone who wants to sell **tomatoes, cucumbers, native foods, meat, dairy, baked goods, preserved foods** or anything interesting and different. Still, we encourage any producer to visit our farm stand and chat with us about selling!

Also, we understand local government policies exist to regulate the production and sale of value-added foods such as baked goods, preserved foods, etc. Marana Farm staff members are willing to work with producers who may require special certification or licensing to meet the requirements of these regulations. Please contact us to discuss how we might help.

Currently, there is NO charge for vendor space. We simply desire to create a fun, social atmosphere where we can celebrate our local food culture and local food system.
